

— TAKE OFF WITH US —

BORIS

SOFTWARE ENGINEERING
MEMBER SINCE 2014

At INNOFORCE, exciting and challenging tasks await you in a young, open-minded team. You will develop your own ideas and implement them independently. Even as a trainee or diploma student, you will get the chance to realise your own projects. Do you want to set new standards with us? Do you want to realise truly innovative and high-quality software solutions? Then we would be happy if you contact us via job@innoforce.com.

** An internship or student research project at INNOFORCE is not only an educational experience. You also receive free accommodation and an internship salary. In addition, Erasmus scholarships can be applied for internships in Liechtenstein.*
